DETAILED ACTION

1. Applicant's amendment and remarks filed 12/29/09 are acknowledged.
2. Claims 1-4, 7-9, 13, 19, 20, 31, 32, and newly added Claims 48-52 are under examination.
3. In view of Applicant's amendments all previous rejections have been withdrawn.
4. The following new rejection was necessitated by Applicant's amendment.
5. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

6. Claims 1-4, 7-9, 13, 19, 20, 31, 32, and newly added Claims 48 and 50-52 are rejected under 35 U.S.C. 112, first paragraph, as the specification does not contain a written description of the claimed invention, in that the disclosure does not reasonably convey to one skilled in the relevant art that the inventor(s) had possession of the claimed invention at the time the application was filed. This is a written description rejection for the introduction of new matter into the claims.

The specification and the claims as originally filed do not provide support for the invention as now claimed, specifically, an antibody defined by the CDRs of SEQ ID NOs:10 and 45 (light chain) and SEQ ID NOs:18 and 49 (heavy chain).

Applicant cites the original claims, and pages 5, 6, 7, 12 of the specification, as well as Figure 4 in support.

A review of the cites does not reveal an antibody defined only by CDRs.

7. No claim is allowed. Claim 49 is objected to as depending from rejected Claim 1. The claim would be allowable if written

Art Unit: 1644

in independent form.

8. Applicant's amendment or action necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 C.F.R. 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
